Naturally occurring radioactive minerals are exempt from license per the United States Nuclear Regulatory Commission regulations, as stated below.

**NRC 40.13(b)** Any person is exempt from the regulations in this part and from the requirements for a license set forth in section 62 of the act to the extent that such person receives, possesses, uses, or transfers unrefined and unprocessed ore containing source material; provided, that, except as authorized in a specific license, such person shall not refine or process such ore.

Naturally occurring minerals containing thorium are exempt from license per the United States Nuclear Regulatory Commission regulations, as stated below.

**Byproduct material is regulated by NRC Part 30.14 Exempt concentrations.**

(a) Except as provided in paragraphs (c) through (e) of this section, any person is exempt from the requirements for a license set forth in section 81 of the Act and from the regulations in parts 30 through 34, 36, and 39 of this chapter to the extent that such person receives, possesses, uses, transfers, owns, or acquires byproduct material in individual quantities, each of which does not exceed the applicable quantity set forth in § 30.71, Schedule B.

**Waiver of Liability, Assumption of Risk, and Indemnity Agreement**

**Waiver**: I, for myself, my heirs, personal representatives or assigns, do hereby release, waive, discharge, and covenant not to sue Stiftelsen International Thorium Energy Organisation, its officers, employees and agents, from any and all claims resulting in personal injury, accidents or illnesses (including death) and property loss arising from the purchase of unprocessed radioactive ore specimens and/or Trinitite, both of which are hereafter referred to as radioactive mineral specimens.

**Assumption of Risks**: Owning or possessing of radioactive mineral specimens carries with it certain inherent health risks from exposure, inhalation or ingestion of said materials. I am familiar with the characteristics of radioactive specimens and will comply with all laws, regulations, and standards applicable to the possession, handling and storage of said radioactive mineral specimens. My use of these radioactive mineral specimens will only be for scientific, educational or collecting purposes.

I have read the previous paragraphs and I know, understand and appreciate the risks that are inherent in the purchase and possession of radioactive mineral specimens and that I knowingly assume all such risks.

**Indemnification and Hold Harmless**: I also agree to indemnify and hold Stiftelsen International Thorium Energy Organisation, its officers, employees and agents harmless from any and all
claims, actions, suits, procedures, costs, expenses, damages and liabilities, including attorney’s fees brought as a result of my purchase of radioactive mineral specimens.

I declare that I am over 18 years of age.
